## DANISH DESIGN ICON

*Retap follows the Scandinavian design traditions with its simple and functional lines in the design.*

*The Retap Bottle has become a design icon with its beautiful look, eye-catching shape and high quality. The idea of having a one-piece-design without any edges makes the Retap Bottle special. The bottle's shape guarantees a great water flow and makes it easy to refill at the tap. All in all, the Retap Bottle matches the Scandinavian design heritage perfectly.*

9.

# MADE FROM WASTE, TO END WASTE.

*By using waste materials to make new products which are then fully recyclable, we can reuse the same materials over and over, closing the circle. This drastically reduces CO2 emissions, stops consumption of the planet's precious resources, and eliminates pollution; the three core environmental challenges humanity faces.*

*By joining us on this mission for Circularity, together we can take real steps towards a sustainable future.*

*Let's not forget that pen and paper go together, and this year prodir have collaborated with mishmash to release a complimentary notebook to go along side prodir's wide range of eco conscious pens.*
